## 2. DIGITAL OCEAN CONVENTION

25th and 26th of August 2021 at the  
HanseMesse Rostock

### Guiding principle:

Future field digital subsea technology:  
What it needs, what it accomplishes and  
where it is used

Partner country: Norway

Participation on site or via live stream

The poster features a central image of a yellow autonomous underwater vehicle (AUV) in a blue, data-filled underwater environment. The text is arranged in a structured layout with logos at the top, event details in the middle, and a program overview at the bottom. A QR code and contact information are provided in the bottom right corner.

Digital underwater technology – pioneering and powerful:  
Requirements, capabilities, applications

At the **Digital Ocean Convention Rostock**, representatives from the worlds of business, science and politics will discuss the latest developments, trends and projects in digital underwater technology.

**You can look forward to a wide-ranging program:**

- Keynotes and panel discussions
- Accompanying exhibition showcasing the latest products and developments
- Presentations highlighting start-ups and innovative solutions
- Networking opportunities

**How to attend – in person or by live stream:**

- All applicable health and safety requirements will be observed
- There will be no fees for cancellations made at short notice
- Should you wish to pre-register for the event now, or receive further information (program and updates), please visit: [www.otc-rostock.com](http://www.otc-rostock.com)

**Digital participation possible** | **Live stream and chats**

If the event cannot be carried out due to the COVID-19 pandemic, contracts that have arisen will of course be reversed and both contractual partners will be released from their rights and obligations.

We would like to offer you, despite the current uncertainties, the opportunity to participate as a partner in this year's Digital Ocean Convention without being exposed to a financial burden in the event of the event being postponed or canceled.
